

SPOOKY FRUIT SPIDER SNACK

What you need to make one spider:

- 2 pieces of uncooked spaghetti
- 1 handful of raisins (won't work if they aren't moist)
- 1 date
- 2 popcorn kernels

How to assemble:

1. Break the pasta into 8 pieces. These make the legs.
2. String the raisins on the pasta leaving part of the pasta sticking out of the end. Repeat this for each leg.
3. Poke the pasta/raisin legs into the date.
4. Add the popcorn kernels for the eyes.

*Note: Raisins are poisonous to dogs and can cause kidney failure so please keep them away while little kids build their spiders.
